# 220% Increase AUBURN

1926 over 1925 as shown by automotive industries of June 17, 1926

According to automotive industries, this gain is the largest gain made by any manufacturer, irrespective of size or type of car, and compares to 17% average increase for the total industry. Auburn rounded out the first half year with the sale of approximately 10% more cars than in the entire year of 1925.

Such acceptance by the public must be deserved—again we say, see, ride in and drive the product of America's fastest growing automobile company—you will not be asked to buy.

- 2-Jay Cooke State Park, Minnesota, in the valley of the St. Louis River. Rugged country and pine forests. Fifteen miles from Duluth on State Highway No. 1
- 3-The Hanging Tree, Versailles, Indiana, formerly used as a gallows for hanging criminals. In a vicinity of great historical interest. State Highway No. 6 from Indianapolis.
- 4-Valley City, North Dakota, set like a jewel on the Cheyenne River with beautiful trees and a great viaduct spanning the valley high above the river. State Highway No. 9.
- 5—The great dam at Keokuk, Iowa, a marvelous feat of engineering skill. Mississippi River Scenic Highway No. 1. 6-Deadwood, South Dakota, famous in the history of frontier life and still more for sunshine, western hospitality and gold production. Graves of "Wild Bill" and "Calamity Jane"
- overlook the city. State Highway No. 30. 7—Lawrence, Kansas, the scene of the famous Quantrell Massacre of 1863. Red Star Route No. 22.
- 8—Alley Spring State Park, Missouri. The spring flows from the bottom of a rocky cliff forming a deep, clear blue lake. Typical Ozark scenery. Sixteen miles north of Birch Tree, Missouri, State Highway No. 16.
- 9-Elk Lake in the heart of Northern Michigan's woods, chosen country of hunters and fishermen. State Highway No. 11.
- 10—Monument at Portage, Wisconsin, commemorating the famous first portage from the Fox to the Wisconsin in 1673 of Louis Joliet and Father Jacques Marquette on their voyage of discovery toward the Mississippi. State Highways No. 10 and No. 33.

Most of the people in Wisco to break the La Follette dynasty down pay most of the taxes. Their tax money is used against them and if they tried to use any of their own private funds in their own behalf they'd be jugged. The morality of this is beautiful to contemplate. Senator La Follette knows how it would work. It hasn't a flaw in it. It pleases the moral sense and satisfies forward looking aspirations and it delivers the goods. It creates a senatorship as an inherited office. The house of lords would have nothing on the United States senate. Tenure in office would be no more assured in the lords and power in office would be much greater in the senate.

We hand the flowers to Senator La Follette. He is brilliant.

Treasury officials today insisted that Mr. Strong is in France on a vacation, being in ill health. It is recalled that Under Secretary of the Treasury Winston, who recently returned from Europe, and Mr. Strong were in Paris together, and there were reports at that time that they were working with French officials on a scheme to stabilize the franc. Both denied that they were on an official mission, and Mr. Winston has repeated the denials since his return.

Mr. Strong stayed on in Europe and was joined by Mr. Norman, who has been a close friend, and who has been in the habit of coming to the United States once a year to discuss international finance. Mellon Denies a Report.

It was denied officially at the treasury today that Secretary Mellon had communicated either directly or indirectly with the new French finance minister, Joseph Caillaux, with regard to Article 7 of the agreement for fund-ing the French debt to the United States. Under this article the secretary would be able to call on France for the issuance of marketable bonds, which could be sold to the public if at any time he should desire.

# This Will Tell You Why You Should Own a Franklin

#### From Amy E. du Pont

The best car on the market today. I have used Franklin Cars for 11 years, and in each successive case have been free from all trouble and have enjoyed the great comfort that only the Franklin con give. The new Series 11 is perfection in sty., comfort and post."—Amy E. du Pont, Wilmington, Del.

#### "In a Class by Itself"

"I do not think there is a car on the market which compares with the Franklin in distinguished appearance, low upkeep, riding quality and power, plus the satisfaction of owning a car that is in a class by itself. I state the above from 9 years' ownership and test."—Dr. J. Clay Williams, Bristow, Okla.

Tow have my fifth Franklin, and it is the best one I ever med. There cannot be too much good said about the Franklin from all standpoints—comfort, pleasure, looks, endurance, d, and last but not least, inexpensive maintenance."-J. B. filer, Corsicana, Tex.

"Rain or shipe-cold or hot-it is always on the job. On a ten aths' run of 14,456 miles, averages 16 miles plus per gallon of line. That's performance, for the speed and power you have In the New Franklin. It has never 'used' a drop of oil that I can see"—Will O. Feudner, Gen. Mgr. and Treasurer, The Daily Republican, Rushville, Ind.

#### Best in Every Way"

Personally, do not think there is any car made that can beat the Franklin (or) follow it through snow, mud or rough roads. Think nothing of driving 300 to 700 miles a day-drove from Pittsfield, Mass., to Toledo, Ohio, 701 miles, in 191/4 hours. Have actives all winter without chains. Can climb out of ruts 6 or 8 acts deep without trouble. Have driven over Lebanon Mountain on one occasion when nine cars using chains were stalled, and pulled out and passed them all without difficulty.

"Compare the Franklin with any other make of car, and the peration and upkeep costs will be much less. The car itself will outwear three or four of the other makes, and you will still have a pretty good car left. I have been able to get double the tire ge on a Franklin that I got on any other car I have operated

"Don't know of any other car made that will stand up and do the work they will do. I have owned two cars that could pass a Franklin on the straightaway, but in slowing down for curves his advantage would be lost. Do not think there is a car made that can beat them on the road in a run of from 100 to 1000

HOUSANDS of experienced owners of water-cooled cars have this year bought their first Franklins - and made the motoring discovery of their lives!

Other thousands of Franklin owners have continued, in Series 11, records of uninterrupted satisfaction covering 10, 15, even 20 yearsand have experienced greater delight than ever before!

There is no group of owners in America so loyal and enthusiastic as the Franklin group. Why? These letters — taken from literally thousands on file at the factory—will tell you!

Now is the time to buy a Franklin! Its quality was never before so high—its style so outstanding—its performance so brilliant—or its price so favorable—as in the latest Series 11. And this great car can be owned on terms that make it the wisest investment and the easiest fine car purchase today.

Come in today—see the striking new cars—learn all the facts about them—take the ride of your life!

#### Has Owned 47 Automobiles

"Nearly all automobile manufacturers speak of quality, but I believe that only Franklin owners realize the great difference. I have owned 47 automobiles-one touring I paid over \$3500 for, and another \$4000. I am proud of my Franklin because I know the contrast. When I come to a detour sign, I know I can hurry on without hurting my car or myself.

"I have driven my Series 11 Franklin 15,200 miles since June 20, 1925, and have paid but ten cents for repairs, which was for a bolt in my back bumper. I have never had my valves ground ... it is running as good now as it was the first day I got it.

"I have often heard that the Franklin is an old man's car, which I believe is true. If any old man wants to ride in comfort, he must ride in a Franklin."-H. B. Holloway, D.C., Elkhart, Ind.

#### "Goes Any Place on High"

"I drove my first Franklin in 1915, a Series 7 Touring. It has been running almost every day since, with only a few repairs such as carburetor and magneto parts that wore out; otherwise, it goes as good as the day I first drove it. One year ago I tested it out for gas, and made 29 miles on a gallon. It strikes me that 11 years of constant use is some record, and still going strong. One year ago today I bought my Series 11 Sedan. It is fine and dandy, has plenty of pep, and goes any place on high."-O. P. Cook, Ventura,

#### "Most Satisfactory of 100 Cars"

"My motoring experience began in 1901, and includes eight to ten years' professional and semi-professional driving. I have owned upwards of a hundred cars of all kinds, and the Series 11 Franklin is the most thoroughly satisfactory in my experience. I cover more miles in greater comfort and less time, and with far less expense, than anything I ever drove."-Hugh Drane, Athens,

#### Had Ten Other Makes

"I have for many years been sold on Franklin. Have had four, after trying out ten other makes. The first cost, when the public does not understand the superior merits, is all that prevents the Franklin from being the most popular car as well as the best car.' -Dr. C. F. Bowker, Morris, Ill.

#### "Its Equal Not on the Roads"

"This is my third Franklin. I have driven it about 12,000 miles, and with the exception of a little trouble I had with my speedometer, no mechanic has yet touched the car except for the purpose of ciling it. For quick getaway in traffic, easy handling, low upkeep, uniform speed for long distances, hill-climbing and easy riding, I don't find its equal on the roads."-George A. Anthony,

"This is my ninth car, and my third Franklin. Before buying It I made a careful study of various water-cooled cars. The more I drive this Series 11 Franklin, the more sure I am that I made a wise choice. I ran my first Franklin more than five years, with a total repair bill of less than \$100."—George S. #### "Best Regardless of Price"

"Would not give the Franklin for any car in America, regard-less of price. Have ridden in and driven almost every make."— E. D. Church, Cambridge, N. Y.

#### "Worth the Cost"

"Franklins are not only in a class by themselves, but are worth every cent they cost. I am very proud of my Franklin."-L. &

#### "Advertising Cannot Tell the Story"

"No amount of advertising can do the Franklin justice. I now own my second. The Franklin must be used to be appreciated. Everyone who rides in my car speaks of the perfect case with which they ride."-Lily M. Isir, Nashville, Tenn.

#### Permanently Franklin

"I do not expect to drive any other make of car as long as it is possible to get a Franklin."-Charles R. Aldrich, Spencer, Ohio.

#### "As Nearly Perfect as Can Be'

"Your advertisements do not really do the Franklin car justice, as its performance is as nearly perfect as it can be. My best endorsement of the Franklin car is the fact that I have purchased four of these cars in a period of less than twenty months."-Dr. Emil L. Bernard, Springfield, Ill.

#### "Fulfills All Expectations"

"I have not had an over-heated motor or any trouble whatever during the time I have owned it. In fact, I personally have not opened the hood in that time, although driving it myself. I have always driven a high-class car, and this one fulfills my expectations better than any other car I have had heretofore."-A. B. Nolte, Nolte Brass Foundry Co., Springfield, Ohio.

#### "Cannot Be Put in Words"

"I don't think that anyone can put in words just what your Series 11 is, and a person cannot find it out by 'asking the mar who owns one, either. It is a question of getting behind the wheel and taking a hundred mile trip. Then you really know what the Franklin is and what it will do."-C. L. Hufsmith, Vice-Pres, First National Bank, Palestine, Tex.

#### 10.500 Miles—Trouble-Free

"I have driven my Series 11 Sedan 10,500 miles. Have not had the carbon cleaned, or the valves ground, or anything done to the motor, and it has the power, the speed, and the quietness it had when new. I am a Franklin booster."—Charles Acklin, Acklin Lumber Co., Waynesburg, Pa.

#### "110° and No Overheating"

"The cooling system is the most marvelous success of any automotive principle. I drove the car with wide-open throttle in Texas temperatures of 110°, all day, day after day, with no suggestion of overheating."-Paul Hunt, Dallas, Texas.

#### Comfort—Power

"The most comfortable-riding car I have ever had."-Joseph E. Way, Kennett Square, Pa. "It has the power and getaway that one needs on country roads. A pleasure to drive."-Harry C. Litts, Abilene, Kans.

#### "Smoothest Running"

"The writer has been driving since the days of the steam-power Locomobile, and Series 11 is the amoothest-running, easiest-fiding of all cars I have ever driven, in addition to its economy of operation."—Roy W. Sexton, Pres., The Initial Co., Wytheville,

#### "4 Years-No Repairs"

"Have owned a Franklin for 4 years and have never had one seent of expense except gas and oil. Mileage to date is 31,250. Original Goodyear cords still on. Have owned several makes of ears; the Franklin is 40% cheaper to operate."—F. J. Duncan, Laurelville, Pa

# Chrysler sales increase from \$4,408,501 to \$11,157,756 in one year with Chicago Tribune Advertising

HRYSLER sales in the Chicago district jumped nearly \$6,750,000 last year. This increase represents a gain of 153 per cent in sales over the previous year. Chrysler sales in the Chicago district amounted to \$4,408,501 in 1924. About the middle of 1925 the Chrysler organization adopted a new advertising policy in Chicago. It decided to use larger space and more lineage in The Chicago Tribune.

Results were immediate. Sales began to jump. The total volume of sales for the year was \$11,157,756.

The results of this Chrysler advertising in The Chicago Tribune could be described with bold and picturesque adjectives. The straight statement of the facts provides a more effective message. The words of R. H. Collins of the R. H. Collins Automobile Company, Chicago Distributors of Chrysler Cars, need no embellishment.

#### Sales Increase 153%

"Our auditors have completed a report of the retail sales made by Chrysler dealers in our territory, which includes sixty counties in the northern and central parts of Illinois,"

# has gain of 153% in the Chicago district

said Mr. Collins. "The increase in sales in 1925 over 1924 is very gratifying.

"We credit a considerable measure of this healthy gain in sales to the increased lineage and larger space used in The Tribune during 1925. It has enabled us to tell and illustrate the story of the splendid Chrysler car to a far greater number of people, and in a more convincing style.

"Our total increase in lineageused in The Tribune in 1925 over 1924 was 46%. The total increase in gross volume of retail sales was 153%.

#### Gain \$6,750,000

"The gross sales in 1924 totaled \$4,408,501.12, and in 1925 they were \$11,157,756.13—a gain of \$6,749,255.01. These figures certainly speak volumes for the tremendous power of The Tribune as an advertising medium for motor cars, particularly when larger copy in your Sunday edition is regularly used."

"The results obtained from our advertising campaign in The Tribune during the last half of 1925 were so satisfactory that we greatly increased our lineage in your paper during the first three months of 1926. You are undoubtedly aware of the fact that we have given you a total lineage of 16,828 lines during the first quarter of 1926, as compared with 8,936 lines during the same quarter of 1925, and we find the increased expenditure is fully justified by the results obtained."

"We felt you would be interested in these facts and figures."

We are interested. We believe any one who sells merchandise is interested, too. No words of ours could describe better the power of The Chicago Tribune to make sales. Note, however, that this enormous gain was made only in Chicago and 60 Illinois counties. Benefits to Chrysler spread throughout the five states of The Chicago Territory where The Tribune reaches from 20% to 90% of the families in 1,151 towns.

A Tribune man will be glad to show you how The Tribune can be used to increase your sales in The Chicago Territory.

BY BOB BECKER. The Mackinaw river (not far from Pekin, IK.) is just about ready to help fishermen celebrate the Fourth of July, according to reports from Loren Fisher of the state conservation department. This small mouth bass stream, which northern Illinois anglers may want to tackle over the Fourth of July week-end, has been rolly and high as a result of heavy rains, but Fisher advises us that with normal weather it should be in pretty fair shape by the Fourth.

Fishermen who are checking out tomorrow for several days' fun in Michigan lakes and streams should keep in mind the new 1926 regulations which the Wolverine state has put into effect. This means that no hass under 12 inches is of legal length and a day's catch is now five.

Don't forget to buy your shipping coupons if you want to send bass out of Wisconsin. A two dollar bill will buy these coupons, whereas three dollars is the price of a Wisconsin nonresident license without the shipping

Dated June 1, 1926. Due June 1, 1951. Interest payable June 1 and December 1 in New York and Chicago. Redeemable at the option of the Company in whole or in part on any interest payment date on 30 days' published notice at 105 and interest, on or before June 1, 1941, less ½ of 1% for each year or part thereof elapsed thereafter. Coupon bonds in interchangeable denominations of \$1,000, \$500, and \$100, registerable as to principal. The New York Trust Company, New York City, Trustee.

First Lien 6% Gold Bonds, Series "A"

Interest payable without deduction for that part of any Normal Federal Income Tax deductible at the source not in excess of 2%.

The Company also agrees to refund, upon application, to resident holders, the following taxes: Pennsylvania 4 mills

Tax, Maryland Security Tax not exceeding 4½ mills, Connecticut Personal Property Tax not exceeding

4 mills, California Personal Property Tax not exceeding 4 mills, District of Columbia Personal Property Tax not exceeding 5 mills, and the Massachusetts income tax on the interest not exceeding 6%.

For information we refer to a letter of Mr. George B. Adams, President, which states that:

COMPANY: The Southern Cities Utilities Company, incorporated in 1917, supplies electric light and power, gas, water, ice and transportation service, through subsidiaries or leased properties, to 54 communities in West Virginia, Tennessee, Pennsylvania and Alabama. In addition, the Company has contracted to furnish electric light and power to 29 additional towns in Tennessee to be presently inter-connected. Customers total over 33,000, while the population of the communities and adjacent territory is approximately

Among the important communities in the system are Morgantown and Wheeling, W. Va.; Columbia, Fayetteville and Shelbyville, Tenn. More than 81% of the gross revenues and 91% of the net earnings are derived from sources other than transportation.

SECURITY: These \$5,500,000 First Lien 6% Gold Bonds will be secured, in the opinion of counsel, by the deposit of (a) all, but not less than \$5,500,000, principal amount, of the issued and outstanding bonds, secured by a first mortgage lien on the propbonds, secured by a first mortgage lien on the properties of certain subsidiaries, subject to \$638,000 net amount of divisional bonds to be outstanding with the public, and (b) all of the outstanding common stocks of all subsidiaries. On completion of this financing, none of the owned subsidiaries will have any other bonds outstanding in the hands of the public, nor may any such subsidiary issue any bonds or common stocks hereafter unless such securities are pledged under this agreement. pledged under this agreement.

VALUATION: Properties of the Company and of owned subsidiaries have been appraised by inde-pendent engineers as of March 1, 1926, at a net sound value, which together with new cash available for construction as a result of the present financing, is equal to approximately 175% of the total First Lien 6% Gold Bonds and divisional bonds to be presently outstanding.

NEW YORK

EARNINGS: Consolidated earnings of the Southern Cities Utility Company and owned subsidiaries for the twelve months ended March 31, 1926, as certified to by independent auditors, have been as follows:

12 Months Ended March 31: 1926 Gross Earnings \$2,321,555.81 Operating expenses, including mainte-

nance and taxes, except Federal Taxes 1,572,973.30

Annual Interest Charges on \$5,500,000
First Lien 6% Gold Bonds, Series "A" and net amount of divisional bonds \$364,380.00

Net earnings for the 12 months ended March 31, 1926, as thus computed, were equal to more than twice interest charges indicated above. Such earnings include the result of operations from properties acquired during the past year, but only from the date of acquisition. Net earnings since the date of the audit have been at the rate of about \$20,000 a month more than in the corresponding month of last year.

PURPOSE OF ISSUE: The agreement under which these bonds are to be issued is a part of a plan to provide a simple conservative vehicle for future financing. Proceeds of this issue and the \$1,500,000 6% Convertible Gold Debentures will be used to redeem outstanding bonds, to reimburse the Company for expenditures made for additions and improvements, to provide a substantial amount of cash for ompletion of the present construction program and for other corporate purposes.

MARKET EQUITY: The market equity of the securities junior to this issue, as represented by the par value of the \$1,500,000 6% Convertible Gold Debentures, to be presently issued, and the present market quotations on the preferred and common stocks, is equal to more than \$5,500,000.

#### MIDYEAR YIELDS CITIES SERVICE TRANSPORTATION **600 MILLION FOR** First Mortgage **NEW INVESTMENT** Marine Equipment

BY A. O. MATHER.

The mid-year period, ending this week, brings to light much illuminat ing evidence of the vast wealth and buying power of the American peo ble. The most impressive aspect is the broad diffusion of our national wealth, which enables the country to absorb the present large production of commodities and also to increase its

It is estimated that midyear disburse ments of dividends and interest have ex-ceeded \$600,000,000, most of which will be returned to the investment markets. This record breaking aggregate payment attests the prosperity of our industries.

Another evidence of the soundness of the public finances is the fact that the federal treasury ended its fiscal year on Wednesday with a surplus of \$330,000,000 despite the fact that the public debt was reduced nearly \$500,000,000 out of cur-rent revenues. Income tax collections increased substantially despite the cur

\$2,172,990.000 New Pinancing. As for investments, new corporate fin-ancing last month is calculated at \$278,-280.400, an increase of more than \$70,000,000 over June, last year, and of nearly \$25,000,000 over May this year. New financing for the first half of this year aggregated \$2,172,990,000, an increase of nearly \$181,000,000 over the same period last year.
Commercial failures for June were cal-

culated at 1,708, compared with 1,730 in May, and 1,745 in June, last year. Fallures in the last three months totaled 5.395, compared with 5,451 a year ago; while failures for the first half of this year totaled 11,476 with liabilities of \$209,898,501, compared with 11,420 and \$239,398,450 in the first half of 1925. As evidence of buying power, Mont-gomery Ward & Co., Chicago mail order house, reported June sales of \$16,611,553, a gain of 15.11 per cent over a year ago; while sales for the first half of this year totaled \$95,216,710, an increase of 15.52

per cent over the same period in 1925. Increased Credit Demand.

The temporary increase in demands for credit attendant on the midyear settlements is shown in the weekly report of the federal reserve system, issued last night. Loans and open market bills bought expanded \$35,873,000 and \$2,158,-000, respectively. Government securities increased \$2,181,000. Deposits expanded \$1,612,000, with member bank reserve credits increasing \$3,533,000 and government deposits declining \$1,122,000. Note circulation rose \$14,510,000. Gold and total reserves declined \$11,713,000 and \$15,894,000, respectively. The ratio of reserves to liabilities declined to 75.3 from 76 per cent in the preceding week. At Chicago, loans and deposits ex-panded \$21,476,000 and \$4,983,000, respectively, while reserves declined \$11,428,000. The reserve ratio fell to 69.9 from 73.1 per cent in the preceding week. At New York loans expanded \$10,224,000 but bills bought declined \$5,840,000. Deposits decreased \$2,199,000. Reserves increased \$10,749,000. The reserve ratio rose to 84.6 from 84.4 per cent in the preceding

21/2 Times Greater Productivity

The success of a business depends upon the buying power of its customers, and buying power depends upon production.

According to the most recent government reports, the annual value of the basic products—manufactures, mines, farm crops, live stock, etc.—is, on the average, \$15,000,000 per county for the United States as a whole. The value of the same products per county for the 92 counties served by the Asseciated System is \$38,000,000.

The preduction per county served by the Associated System, therefore, is over 3½ times as great as that for the United States

This is due to the fertility, the larger population and also to the greater per capita production—which is 6.6% greater—for the counties served than for the country as a whole.

Greater production leads to greater demand for service and indicates the well-established character of both residential and power customers. It accounts for the steady and substantial growth in electric output and points to the possibilities for further development in Associated territory.

#### Fort Sheridan Offers Equestrians Another Chance to Exhibit

The horse lovers are rejoicing in anther opportunity to try their skill and their steeds, to be offered in the Fort Sheridan horse show to take place on July 16 and 17, just a week after the Onwentsia show. The Fort's neat tanbark ring has been moved a bit east, so that the jumping and hunting classes may be accommodated on an outside track on the parade ground. More than 40 classes have been listed, and the large number of entries necessitates beginning each day's sessions at 10 o clock in the morning and at 1:30 in the afternoon. Many of the out-of-town exhibitors are taking advantage of both the Lake Forest and the Fort Sheridan shows. Owners are expected from Detroit, Cleveland, and Milwaukee.

The committee, which is headed by Brig. Gen. Michael J. Lenihan, has planned to have classes for every type of horse, Capt. Dirk Van Ingen, secretary, is in charge of the entry forms and information. The local exhibitors include many of the inveterate equestrian fans, Mrs. A. C. Thompson, John R. Thompson, Benjamin Leslie Behr, Mrs. William E. Swift Jr., Otto W. Lehmann, John D. Hertz, Chauncey McCormick, and Miss Frances Hamill of Hinsdale, who is entering Slip-per in several of the classes. The The wedding of Miss Maxine Evans Chase girls, Libby and Janet, Miss Jane Morton, Miss Alicia Patterson, and Joseph T. Bowen Jr. are among those who will ride. Chiffon Dinner Gown-By Corinne Lowe

NEW YORK .- [Special Correspondence.]-In looking at this evening model we observe that a rhinestone gathereth much floss. Floss or other form of thread is certainly necessary to attach those hundreds of brilliants massed on the bands of this lovely green satin back crêpe.

Rhinestones and beads are seen often in the band formations which have for so many months been part of our evening technique. It is certainly true, however, that all which glitters is not either a rhinestone or a bead. For sequins are much in the mode and these are not adapted especially to application in bands. Sequins have no fabric preferences

and they sparkle upon evening models of taffeta and chiffon, of tulle and crèpe. Sometimes they are applied in allover effect, as is witnessed by a white chiffon dinner gown from Molyneux that glints from neck line to her with a design of sequins intermingled with pearls and crystal. In other cases they confine themselves to the corsage or to the border of the skirt.

To go back to our present model this delightful creation displays the oval neck line back and front. In passing, let it be said that this type of décolletage is the smartest of the sea son and is especially arbitrary in the back. The front of the corsage shirred in the new way at the sides of the panel and in the back the blow evement is accomplished by aid of rhinestone belt.

#### Three Wrappings Guard their Crispness

Post Toasties are Double-Crist and Double-Good because they're Double-Thick

We flake Post Toasties Double-Thick to give and learn of their double-crispness and their them double - goodness and double - crispness. Then we toast them golden-brown and give them three wrappings to insure oven-freshness when they reach your table.

We want you to make the Milk or Cream Test and learn the luxury of Double-Thick corn flakes. We want you to know the delicious natural corn flavor of Post Toastics.

There's nothing like a bowl of crackling crisp Post Toasties and milk or cream to start the day. Be sure you get the genuine Double-Thick corn flakes in the red and yellow, wax-wrapped

Make the Milk or Cream Test

Here is a test that has taught thousands the luxury of Post Toasties, Double-Thick corn flakes. Make this Milk or Cream Test yourself

double-goodness.

Get a package of Post Toasties at your grocer's or send for free test package. Shower some of the crisp, Double-Thick corn flakes into a bowl and add milk or cream.

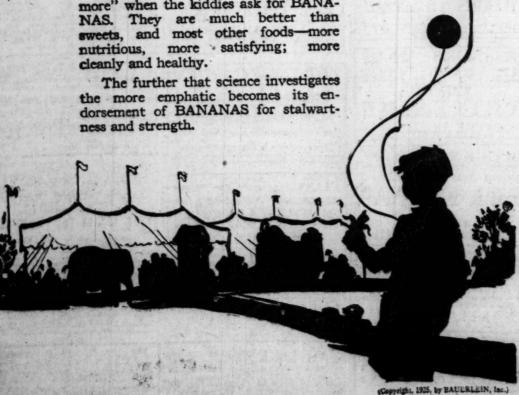

As you test Post Toasties note their delicious flavor and their wonderful oven-crispness. Note, too, how the flavor and crispness last, to the final flake at the bottom of the bowl.

Note: . Be sure you get genuine Post Toasties, Double-Thick corn flakes. Ask for them by name and look for the red and yellow, wax-wrapped package that wears the Post Health Products Seal.

#### ayes! BANANAS The Body Builder Let Him Eat All He Wants Never say "you can't have any more" when the kiddies ask for BANA-NAS. They are much better than sweets, and most other foods-more nutritious, more satisfying; more cleanly and healthy. The further that science investigates the more emphatic becomes its endorsement of BANANAS for stalwartness and strength.
